NEW

SPINAL-GTMlide

Designed to Support the way your body moves.
Fights Fatigue, Hip, Back and Shoulder Pain.

Patented

AHEAD Spinal G Drum Thrones

So why sit on a stool? Sit on a throne specifically designed to support the way your body moves. ErgokineticsTM Spinal-Glide seat created with drummers in mind!

Improves flexibility and fights fatigue, hip, back and shoulder pain because it:

- Allows the pelvis to move reciprocally in three dimensions. (See Spring model)
- Allows the tailbone (coccyx) to hang naturally versus being compressed against a seat.
- Supports a more natural movement of the spine and shoulders while seated. (See Spring model)

"The advantages of the the Ergokinetic chair are clear. It offers greater support and motion advantages"
Brunel University (UK) School of Engineering and Design, November 2011
