

## **Kasza Cymbals Not What You Think!**

**NEW for 2010 Big Bang Distribution is excited to announce a complete, new line of cymbals (innovative in price, sound quality, and simplicity) offering a unique handmade, hand hammered, traditionally crafted cymbal for all styles of music, starting with our R series (Rock) which are designed for a wide range of popular music. All of our cymbals are made from pure B20 cast bronze (80% copper & 20% tin.) No two are alike, each with their own unique characteristics. Also available is our F series (Fusion) cymbals designed for more complex styles they are thin and encompass a soft lathe cut and smaller bell for fast decay and darker sound. And lastly, the S-series a new twist on starter sets, they are made of the same quality B20 formula with slightly less hammering. These are perfect for entry level with unbeatable quality for the price, not found in an entry level pre- pack. Visit us at Winter NAMM 2010 Booth 3564 or for more info contact us @ [www.bigbangdist.com](http://www.bigbangdist.com) or 800-547-6401.**
